## INSTRUCTION MANUAL

Assembling and using the  
Snoozy One baby stroller

# SNOOZY<sup>+</sup>

THE SMART STROLLER COMPANY

# Parts

## Maintenance

- Please check if the baby stroller's parts are loose, missing, broken or have any other damage. Please arrange to replace or repair if necessary.
- The baby stroller should be kept away from fire or other very hot objects.
- Use neutral or soapy water to clean the textile, metal, leather and plastic surfaces. Wipe the baby stroller gently. Do not use strong liquid chemicals. Leave it to air dry. Never use the washing machine to clean it.

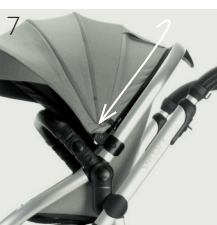

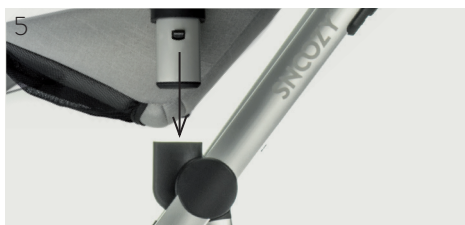

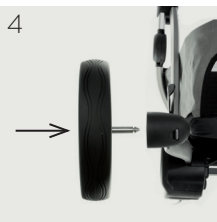

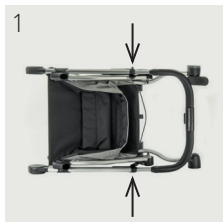

## Warning

- Please read the following instructions carefully and keep it with you for reference.
- Not following the instructions could compromise the baby's safety.
- The baby stroller must be watched by the person in charge at all times.
- The sport seat is not suitable for babies under 6 months old.
- The product is not suitable for infants of over 17 kg (33 lbs).
- The bassinet is only suitable for babies aged 0 - 6 months.  
Max. carrying capacity is 9 kg (20 lbs).
- Please make sure that the brake is released before using the baby stroller.
- Please don't fold the baby stroller while the baby is sitting in the stroller.
- Make sure that the baby is wearing the safety belt when sitting in the sport seat.
- Don't leave the stroller unattended on a slope.
- The max. carrying capacity for the sport seat is 17 kg (33 lbs).
- Please don't put shopping bags or other heavy items on the baby stroller's handle to prevent the stroller falling over.
- Please don't disassemble or adjust any of the stroller's parts while the baby is in the baby stroller.
- Please keep plastic bags away from the baby stroller to prevent the baby from suffocating.
- Please don't use a more than 20 mm thick cotton blanket for the bassinet.
- The max. carrying capacity for the two hooks on the handle is 1 kg (2.2 lbs).
- The max. carrying capacity of the seat pocket on the chair's back is 1.5 kg (3.3 lbs).

This product meets the EU EN1888-2012 and ASTM F833-15 (American Society for Testing and Materials) standards for baby strollers. All textiles are Oeko-Tex 100® certified.

# First steps

## Opening and assembling the Snoozy One

**1 Open** Hold the frame on the outside and release the locking mechanism on both sides (1). Pull the handle. The stroller is open when you hear a clicking sound (2).

**2 Wheels** Front wheel: Put the small wheel on the axle. The wheel is attached when you hear a clicking sound (3).

Back wheel: Put the big wheel on the axle. The wheel is attached when you hear a clicking sound (4).

**3 Seat** Push the connecting tube into the attachment (5). When this is done correctly, you should not be able to remove the seat when you lift it up. A clicking sound ensures that both sides are fully engaged and secure.

**4 Canopy** Attach the canopy by pressing the canopy clip into the seat frame's attachment pins (6). Repeat on the other side and close the zipper (7).

**5 Front bar** Attach the front bar (handle) to the seat (8). Make sure the front bar is fully attached.

## Assembling the bassinet

**1 Assembly** Connect the bassinet's connecting tube into the frame's attachment (9). Make sure the bassinet is fully attached.

**2 Remove** If you need to remove the bassinet, push the connecting buttons on both sides and lift up the bassinet (10).

**3 Open** Open the zippers inside the bassinet on both sides of the inner bassinet (11). Straighten up the plastic parts on both sides (12). Close the zipper on both sides. Put the mattress on the bottom of the bassinet.

**4 Foot cover** Zip the foot cover onto the top of the bassinet (13).

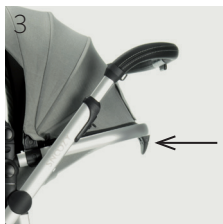

**5 Bassinet's canopy** Attach the canopy by pressing the clip onto bassinet frame until you hear a clicking sound (14). Repeat the action on the other side. Once assembled, close the zipper between the canopy and bassinet (15).

**6 Front bar** Attach the front bar (handle) to the bassinet (16). Make sure the front bar is fully attached.

# Function and use

## Adjustments

**1 Handle bar** Push the button, pull out the handle bar, then release the button (1). This baby stroller has three different levels to adjust to your required height (2).

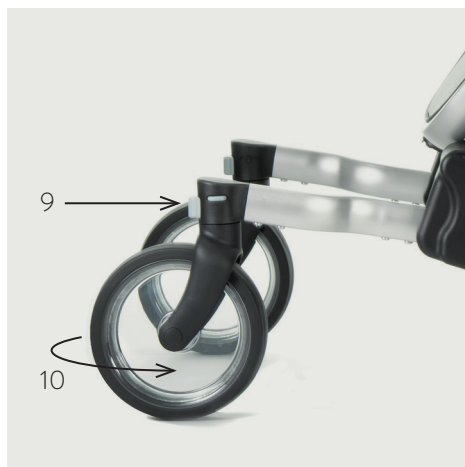

**2 Baby sport seat** Push the lever on top of the sport seat (in the middle) (3). Adjust the seat to one of the three positions (4).

**3 Front bar (handle)** Grab the front bar (handle) and press the buttons on the side using your forefingers (5). Push the front bar (handle) up or down (6). There are three positions.

**4 Canopy** It is possible to attach the canopy to the sport seat (7) or the bassinet (8). Just close the zipper and pull the canopy to the required position.

## Wheels

**Fix the front wheel** Pull down the lever (9) and turn the front wheel around (10) until you hear a clicking sound.

## Brake

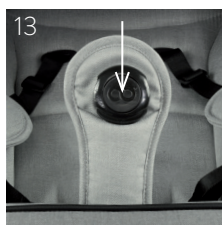

**Using the brake** Use your right foot to step on the brake (11) and pull the baby stroller slightly towards you (12). Both rear wheels are now locked. To release the brake, step on the lever again and push the stroller forward.

Warning: Activate the brake at all times as soon as the stroller is at rest.

## Safety belt

**1 Using the safety belt** Press the button to release the safety belt (13). Sit the baby in the sport seat. Pull the two safety straps over the baby into the middle and insert the buckles into the buckle until you hear a clicking sound (14).

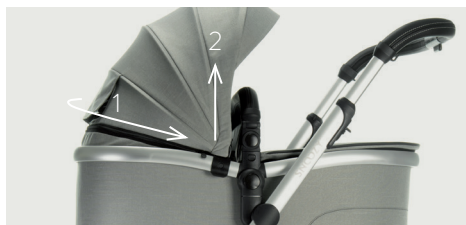

**2 Adjusting the belt lengths** Push or pull the buckle up or down until you reach the required length (15).

Warning: Fasten the belts at all times whenever the baby is in the stroller.

# Disassembly and folding up

## Disassembly

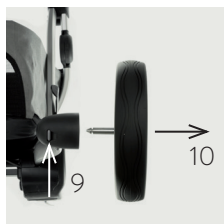

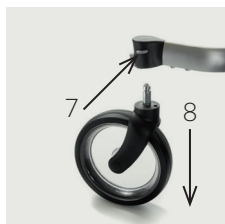

**1 Canopy** Open the zipper between the canopy and seat or bassinet (1). Disconnect the attachment clips and remove the canopy from the sport seat or bassinet (2).

**2 Front bar (handle)** Hold the front bar (handle). Use your forefinger to press the semicircular connecting button (3). The front bar (handle) can be removed (4). Repeat on the other side.

**3 Sport seat /Bassinet** Hold the sport seat/ bassinet, with both hands and use your forefinger to press the connecting button (5) on both sides, pull up and remove the sport seat/ bassinet (6).

**4 Wheels** Front wheel: Press the connecting button for the front wheel (7) and pull down the wheel (8).

Back wheel: Press the connecting button for the back wheel (9) and pull away the wheel (10).

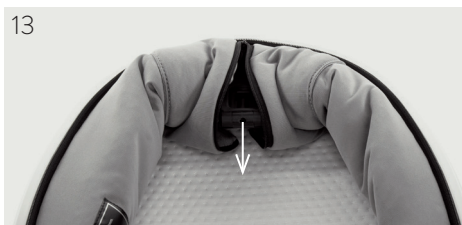

## Folding up the bassinet

Remove the canopy and the front bar (handle). Open the zipper on both sides of the bassinet (11).

To fold the bassinet up grab the plastic part of the bassinet and pull up the lock (12).

Push the plastic part of the bassinet inside (13). You can now fold the bassinet up.

## Folding up the baby stroller

**1** Lock the rear wheels by stepping on the brake with your right foot (14).

**2** Hold the handle bar on the left and right side and push in the small buttons using your forefingers. At the same time pull up the switch lever on both sides (15). Now the baby stroller can be folded up (16).

**3** After folding up the baby stroller, lock the locking mechanism on both sides (17).
